Allowable Subject Matter

1. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 7-14 and 16, directed to the species of II-IV no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. Claims 1-26 are allowed.

3. This application is in condition for allowance except for the presence of claims 27-36 non-elected without traverse. Accordingly, claims 27-36 have been cancelled.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: In claim 1, the spin-valve thin film element having a mean-free-path-extending layer between the free and exchange bias layer for extending the mean free path of conduction electrons wherein the mean-free-path-extending layer is positioned on a side of the free magnetic layer remote from the pinned magnetic layer is neither taught nor suggested by the prior art of record including Hasegawa et al. Hasegawa et al shows a nonmagnetic layer on the same side with the pinned magnetic layer when viewed from the free magnetic layer in contrast to the amended position of the mean-free-path-extending layer. Also, see Applicant's arguments on pages 10-11 of the paper filed 1/26/05.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George J. Letscher whose telephone number is 571-272-7591. The examiner can normally be reached on a Conventional work schedule.
